

Introduction

Modern slavery is a heinous crime and a morally reprehensible act that deprives a person's liberty and dignity for another person's gain. It is a real problem for millions of people around the world, including many in developed countries, who are being kept and exploited in various forms of slavery. Every company is at risk of being involved in this crime through its own operations and its supply chain.

DSM Demolition Ltd has a zero-tolerance approach to modern slavery and are fully committed to preventing slavery and human trafficking in all of its operations and supply chains.

We have taken concrete steps to tackle modern slavery, as outlined in our statement. This statement sets out the actions that we have taken to understand all potential modern slavery risks related to our business, and to implement steps to prevent slavery and human trafficking during the financial year 2022.

This statement has been approved by the Board of Directors of DSM Demolition Ltd and signed by Andrew Fletcher, the Managing Director.

Our business and supply chains

DSM Demolition Limited is one of the UK's leading demolition and decommissioning companies, with an international reputation for Quality, Innovation, Health and Safety. Established in 1988, the business has built up its reputation on repeat business and strong business relationships operating across a broad range of sectors. The company offers extensive specialist services throughout the United Kingdom and Ireland to a well established and valued client base including; Local Authorities, Government Bodies, Health Trusts, Utility Companies, Developers and Main Contractors.

DSM Demolition Ltd maintains a select core of supply chain partners and their careful selection and on-going review ensures all parties are committed to challenging behaviour that does not support our respect for the law, compliance with health, safety and environmental standards and a commitment to ethical work place practices.

We have not been made aware of any allegations of human trafficking/slavery activities against any of our suppliers, but if we were, we would act immediately against the supplier and report it to the authorities.

Risk assessment

In the past year, we have conducted a full review of our supply chain and risk assessment taking into account:

- The business services rendered by the suppliers
- The presence of vulnerable demographic groups

Our assessment of our supply chain confirms we are relatively limited to the exposure of human trafficking. The area of greatest risk to the organisation is the recruitment of temporary labour and paying the agency not the employee.

DSM Demolition have a designated Slavery Compliance Officer (SCO) to whom all concerns regarding Modern Slavery should be addressed. The SCO will, amongst others, co-ordinate and follow up any investigations following a report of Modern Slavery or failure to comply with DSM's Anti Slavery protocol.
